WHAT'S INSIDE

SPECIAL REPORT:

China Particleboard Industry Development Update

According to the statistics from China National Forest Products Industry Association, China completed 6 new particleboard production lines in 2016, adding new production capacity of 715,000 m3 annually. By the end of 2016, China had nearly 320 particleboard factories operating 337 particleboard production lines in 24 different provinces and regions, with an annual production capacity of 20.8 million m3, which represented an increase of 5.4% from 2015. In 2017, China had 43 new particleboard production lines under construction, bringing the annual capacity to 8.48 million m3. Thirty-one of them are...
