### SPECIAL REPORT:

#### China Wood-Based Panels: Export Overview in 2017

In recent years, China's wood products exports have been facing greater pressure, especially due to the rising production costs, strong competition from other supplying countries, complicated international situations, etc. The export value of plywood, particleboard and fibreboard all recorded decreases in 2017 as compared to 2016.

Plywood still dominated wood-based panel exports (10.9 million m<sup>3</sup> of plywood was exported in 2017) but the volume decreased by 2.9% vs. 2016.
