WHAT'S INSIDE

Special Report: China SPF Market Trends

The main applications for Canadian SPF in China are construction lumber (for 2x4) and furring strips (for 2x6 and wider). SPF is facing increasing competition from cheaper Ukrainian lumber in construction end uses.

In terms of SPF 2x6 and wider, the application for furring strips has shrunk dramatically due to competition from other species, mostly Russian lumber. It is estimated that SPF's market share in wooden furring strips in Taicang is only 20-30% currently as compared with 80-90% in 2015. It is estimated only 10 out of 80 furring strip production mills in Taicang are still using SPF for furring strip production...
