WHAT'S INSIDE

Special Report: China MDF Industry in 2017

In 2017, China's fibreboard production volume was 62.97 million m³, a decline of 5.3% compared with 2016, and the production value reached more than 101.2 billion RMB (15.6 billion USD). This was the first year of a production volume decline in nearly 20 years. Meanwhile, the average annual growth rate of fibreboard production during the last 10 years was 8.7% – the first time this average annual growth rate has been below 10% in that time...

China added only 160,000 m³ of new capacity in 2017 – the annual increase in nearly 20 years.
